

# Case Study - Kitchen In Mobberley

We was asked to design and install a simple kitchen within an small office environment, which would include a small seated breakfast bar area and a functional kitchen to suit the requirements of the office. We implemented a handleless, stone grey kitchen with a dark grey pine worktop, complemented with a stone grey back panel and grey granite sink. The kitchen offered a full height integrated fridge, dishwasher and storage space to suit the requirements of the business. We also then included a grey pine small seating area opposite the kitchen.
